

2024 Chick Availability List

- All chicks are first come, first served. We do not reserve chicks. All new bi-weekly shipments of chicks will be available on Friday at 9:00am.
- We occasionally run into shipping delays with the USPS. All arrival dates are expected, but not guaranteed. Always call us first to ensure chicks have arrived as scheduled.
- Chicks are sexed pullets with a 90% accuracy rate. Any chicks indicated as straight run are ***not*** sexed. We cannot accept returns on live poultry due to regulations on disease control from the NC Department of Agriculture.
- Chicks are farm animals and some may die. We are unable to offer refunds on chicks that die after leaving our premises.

1. Chicks must have heat at 95 degrees Fahrenheit for the first two weeks then as a guide subtract 5 degrees Fahrenheit every week after until the chicks are fully feathered and ready to leave the brooder.
2. Chicks should have free choice food and water within two hours of purchase.
